Jump For Joy Rose

Rosa 'WEKnewchi'

Height: 4 feet

Spread: 3 feet

Sunlight: 

Hardiness Zone: 5b

Group/Class: Floribunda Rose

Description:

Large, showy clusters of peachy-pink flowers will stand out in your landscape with this wonderful mildly fragrant variety; blooms constantly throughout the season and will make a stunning visual impact along walkways, borders, and in the garden

Ornamental Features

Jump For Joy Rose features showy clusters of lightly-scented double peach flowers at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage which emerges dark red in spring. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Jump For Joy Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Jump For Joy Rose is recommended for the following landscape applications;

Planting & Growing

Jump For Joy Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
